The President & Secretary of the Council were appointed members of the working committee, and it was agreed that the Sandhurst City Council should pay one-fourth of the expenses incurred, the balance to be paid by the other bodies interested

The Secretary submitted quarterly report of Receipts and Expenditure for each Riding.

The engineer reported that he had

visited the proposed new lines of road from Glenalbyn towards Dunolly and from a point on the Kingower & Bealiba road by [illegible] Creek Bridge to Kurting, and recommended the survey of these lines. Also that he had inspected two creeks near Gelson & Smyths and recommended that two bough drains be built there at an estimated cost of eighty five to ninety pounds.

Also recommended that repairs to crossing over creek near Moncrofts garden at Bealiba be executed before winter and that sixty chains of drains be cut in the road from Jennings Bridge towards East Loddon road.

Sec. by Cr. Griffith that the Secretary be instructed to write to the East London Shire Council asking that Council to join in an application to the Govt. for a grant in aid of the erection of a bridge over the London at Ferguson's crossing.

Cr. Coutts opposed the motion on the ground that the bridge would be of some to only a very small number of ratepayers, and also that the cost

should be paid by the Inglewood Riding. Some discussion ensued and, on the motion being put, it was lost by a majority, the voting being as follows:

For the motion	Against
Cr. Hall	Cr. Coutts
" Griffith	" Johns
	" Steel.

Cr. Steel enquired if the usual notice to ratepayers before the 20th June had been given.
The Secretary explained that the notice would be given before the 30th Inst.

The engineer called attention to the approach to the Kingower bridge & recommended the construction there of a pitched crossing with two sills at a cost of abt. £30.—
