The President stated that the decision had
the effect of depriving him of a large tract of

opinion that the granting an extension of

Crown lands included in such extension as
it deprives him of lands the right to the
occupation of which has been sold to him by
the Government, and on which he has
expended a considerable sum of money
in improvements. And also that it is
unfair to take lands from this Shire and
hand them over as commonage to the
control of a neighbouring municipality.
