

Farm Water Planning Workshop

South West Loddon Pipeline Project

THURSDAY 20 JULY 2017

9:30AM – 3:30PM WITH FREE LUNCH

Wedderburn Golf Club,
Boort Wedderburn Road, Wedderburn

This free workshop is being held to assist farmers in planning and designing their on farm water reticulation and future water use plan when joining the South West Loddon Pipeline.

This workshop will:

- Provide the tools to help you complete a basic farm water reticulation design
- Provide information and support for you to complete a long term farm water plan

You will also hear from a farmer with recent experience in connecting to the Wimmera Pipeline.

SPEAKERS

Climate forecast – how the rainfall patterns have changed and will continue to change:

Dale Grey / Graeme Anderson, Agriculture Victoria

Reticulation design and Farm Water Planning:

Greg Bekker, Agriculture Victoria
Clem Sturfels, Agriculture Victoria
