Mr Procter moved that the Council take no action in the matter he is of opinion that good wages may still be earned by the miners on land under notice. Mr McGurk also thought provision should be made for giving access to the reefs. Bro Gray & Ross had both been connected with parties working in the Wedderburn flat for years and knew from experience that it was not payable for

many

Cr Catto said it was easy enough to provide for the relfs but at the same time he was not favourable to throwing open for indiscriminate occupation the Korong Flat, the old fossickers could still obtain a little gold there and he thought applications should be dealt with as they arise. Cr Redwood was in favour of encouraging the cultivation of small areas and so supported the proposal to throw open the land. After further discussion

Cr Lea to Cr Ross } moved as an amendment that Council support a proposal to leave strips of 3 Chains across the flat for mining these to be alternated by others 5 Chains wide for cultivation and a strip of 7 Chains wide to be preserved along the creek as suggested by the Mining Surveyor. Engineer's Report.

The President and Councillors of the Shire of Korong.

GENTLEMEN—

I have the honor to report having prepared drawings and specifications for works authorised at last meeting (17 in all) tenders for which will be in for your consideration to-day.

NORTH RIDING

2.—The Wedderburn and Charlton road, on West side of Barrakee Hill, is in a very bad state, consequent upon the heavy traffic of carting stone for other portions of the road; and I therefore beg to recommend that tenders be called for remetalling and repairs where required when the cartage of stone is finished.

Lindsay

CENTRAL RIDING:

3.—Crs Ross and McGurk and I inspected course of road applied for by residents of Berrimal, between Mrs Robinson's and Mrs Brown's holdings, and find that a road is required, and therefore beg to recommend that the necessary land (about 2¾ acres) be purchased from Mrs Brown (whom we interviewed and agreed with as to price, which we consider satisfactory), to make a road 1 chain wide. The Council to bear expense of transfer, fencing, etc.

to be bought

4.—We also inspected Sutherland's low water bridge and finding the approaches thereto in very bad order, I have, anticipating your approval, called tenders for pitching and metalling same.

Write Kara Kara

5.—I have, in accordance with instructions, inspected Woods's house and fence at Wedderburn junction and on taking measurements find that the house and fence are not on the road, (which is there only 25 links in width) with the exception of one corner post which is 3 or 4 inches on the line.

6.—I beg to again call your attention to the bridge at Gowar East, and to recommend that steps be taken to put it in proper order with as little delay as possible, as it is manifestly unsafe for heavy loads, and the splitting of the straining beams, etc., seems to have increased since my last report.

SOUTH RIDING.

7.—I have, as instructed, inspected the north and south road by M'Rorie's and Packham's, and find that a crossing thereon needs repairing and approaches thereto improving. Also, that in various portions the road road is very badly scoured and should be drained; about two miles of drains will be required and two open crossings, and this will, if done, put the road in thorough order from Cornish's to Laity's. Also about 20 chains of drains are required on east and west three chain road.

Cr Cattle will pay half

8.—We are not responsible for the hole complained of by the schoolmaster at Kurting, as it is entirely off the road.

9.—As instructed, I have inspected the road near Mrs John's, Kingower, and beg to report for your information that a stone crossing is required in the creek and the banks cutting down, and about 20 chains of side drains and a small crossing, south of the creek.

Lindsay

10.—The new bridge at Harrison's is progressing well and will shortly be completed. Finding it necessary to have a clerk of works to superintend the erection of the bridge, I, anticipating your approval, authorised Mr A. Chisholm to act in that capacity.

11.—About 50 or 60 chains of the Kurting and Mysia road, north of the deep lead, is very much cut up and requires gravelling, as there is a lot of heavy traffic on the road.

12.—Since last meeting 16 contracts have been completed, and of the 34 in hand nearly all are started and many will be shortly completed.

13.—I have the honor to submit for your consideration and approval estimates of proposed works for the coming year.

I have the honor to be,
Gentlemen,
Your most obedient servant
ERNEST HA[illegible]N
