Engineer's Report.

The President and Councillors of the Shire of Korong

Gentlemen,—

I have the honor to report as follows:—

NORTH RIDING.

1 Have inspected the Inglewood and Boort road between Smith's and southwards, where there is about two miles which is more or less under water during the winter. There is not any suitable material for making a road in the vicinity, and to simply form it would make it worse than at present. If anything be done on this road a large amount of money will be required, and this does not seem to be warranted by the amount of traffic at present.

2 The old Inglewood and Boort road at Ferris' Hill is badly scoured; I have arranged to have this work done by the contractor in that locality.

3 The culvert on the three chain E and W road between Holmes and Boudel's is in a dangerous condition and requires renewing, except the piles.

4 I have arranged with Mrs Bremner, of Borung, to purchase 1 acre for gravel on the west side of allot 51 for £6, and the council to erect a gate for access to the gravel.

SOUTH RIDING.

5 Inspected the road applied for by J F Morse, which was recently occupied by McGurgan, between allots 13a and 7 and 8a, parish of Korting; this road does not seem to be required, but I would ask that it be held over for the next meeting to make further inquiries.

6 Re Mr Isaac's complaint that John Ryan has diverted water on the Wedderburn and Powlett road.—I am of opinion that Mr Ryan has acted within his rights. He has put a small bank to block a scour running inside his fence which appears to have been started by stock making a track along a narrow right of way to a dam. The bank encroaches a few feet on to the road but does not divert the water. The country is very flat at this part and the water spreads for several chains. Its natural course is across the road and into Mr Isaac's. A small bank has been thrown up under Mr Isaac's fence, evidently some years ago, which stops the water from spreading over his paddock and sends it eastwards, where it is allowed to enter.

TENDERS.

The following is the tender list:—

120 Sidelling formation, and grubbing and clearing, etc, on Burke's Flat and Rheola road.

121 Grubbing and clearing, 3 chains metalling, draining and crossing on McIntyres and Burke's Flat road.

122 10 chains forming and 3 x banks on N and S road near Bird's, Wychitella.

123 Grub, clear and form 5 chains on E and W road by Nisbet's, Woolshed Flat.

I have the honour to be,
Gentlemen,
Your obedient servant,
P. L. Edwardes,
Engineer.
